WORLDWIDE IMPACT

COVID-19

WHAT IS SOCIAL **DISTANCING?**

THE CENTERS FOR DISEASE CONTROL asked everyone to take intentional actions to avoid passing the coronavirus from person to person. Anyone who didn't feel well was asked to stay home. In day-to-day life, social distancing meant staying away from places people gather and staying at least six feet from other people. That meant no eating in restaurants, no movies or plays and no attending sports events. For younger kids, it meant no playgrounds, playdates or sleepovers. For adults, it meant no trips to the gym, salons or restaurants. The CDC also advised that people cancel all non-essential appointments, including surgeries or medical procedures that weren't critical.

» HOW WE DEALT WITH THE SPREAD OF CORONAVIRUS

First steps

- Limited travel out of the country was a first step.
- Experts suggested self-quarantining for those who had recently traveled or were feeling sick.
- New cruise travel was canceled and passengers returning from foreign cruises were quarantined.

SEVERE MEASURES

STATES WITH HIGH LEVELS of positive COVID-19 tests began issuing shelter-in-place orders. Residents were only allowed to leave their homes for essential tasks such as getting food or seeking medical help.

» HOW COMPANIES HELPED

- Many companies that offer online learning resources and services started allowing teachers to use their resources at no charge.
- Adobe began making its Creative Cloud software available for students to use at no charge.
- Burger King started giving away free kids meals to help make up for children who were not being fed because they were not in school.
- U-Haul offered 30 days of free storage for college students who had to move out of their dorms with little notice.
- Many grocery stores began providing senior-only shopping hours so that older citizens could shop with less chance of being exposed to the virus.
- Big box stores, such as Walmart, adjusted store hours so employees could properly clean and sanitize the store and restock the shelves.
- Cosmetics and liquor companies both have alcohol on hand, and some opted to make hand sanitizer at their facilities.
- Companies, such as Apple and Facebook, that had extra masks left over from the California wildfires donated them to hospitals.

COVID-19 TIMELINE

A YEAR LIKE NO OTHER

The family of viruses known as the coronaviruses caused sicknesses ranging from the common cold to more severe diseases such as SARS (severe acute respiratory syndrome), MERS (Middle East respiratory syndrome) and COVID-19, which was first identified in Wuhan, China. Symptoms included fever, cough and trouble breathing. Most developed only mild symptoms, but some people, usually those with other medical conditions, developed more severe symptoms, which were sometimes fatal.

TOILET PAPER **HOARDING**

AS FEARS ROSE over the idea of shelter-in-place orders and quarantine, toilet paper became scarce as consumers decided to clear shelves of TP, hand sanitizer and cleaning supplies. Retailers resorted to limiting the number of packs that could be purchased at one time. We weren't alone, according to CNN, stores in Australia hired security guards to keep the peace in the TP aisles.

TP by the numbers:

- About 90 percent of the TP sold in the U.S. is also made in the U.S.
- The average person uses about 100 rolls each year.
- Approximately 75 percent of the world's population doesn't use TP.
- They do use TP on the International Space Station.
- Normal daily production is more than 83 million rolls per day.
- In the U.S., packaged TP first became available in 1957.
- One company advertised splinter-free TP in 1935.

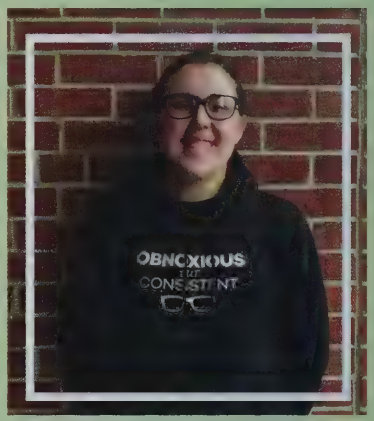
Yearbook Staff 2019-2020



The completion of this book occurred during the world wide pandemic Covid-19 aka "the coronvirus." Because of this many weeks of school were canceled and our staff did not have the resources to finish the book as we would have wanted. We hope you enjoy what we have made and keep in mind that some of this book was created during a difficult time. Special thanks to those staffers who worked extra hard during the time away from school.
